

Welcome to Toulouse

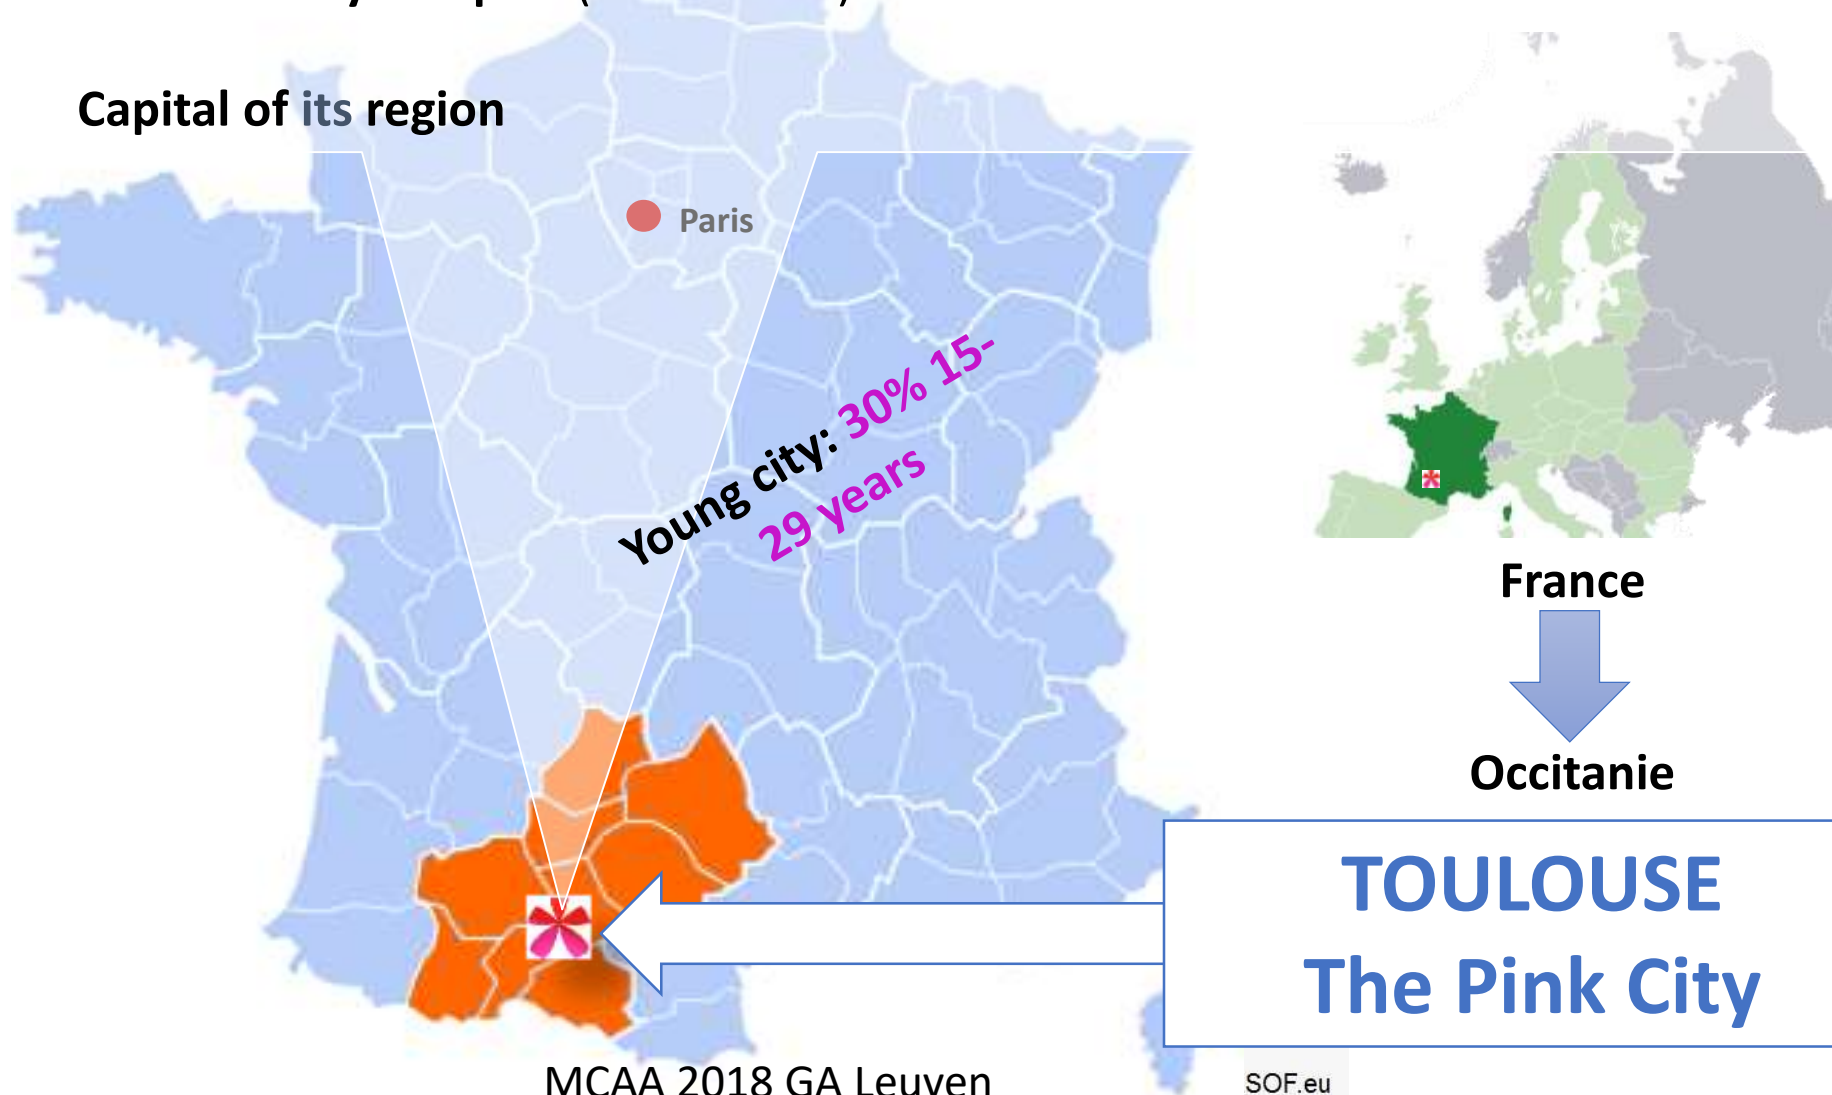

Sharing science: towards new horizons

4th city of France : 440 000 inhabitants (1 270 000 in the urban area)

2nd university campus (out of Paris)

Capital of its region

ESOF 2018: MAIN FEATURES AND KEY FIGURES

ESOF 2018
6-in-1 event and more

9-14 July 2018, Toulouse, France

ESOF in figures

4 000 + participants from 80 + countries

400 + journalists and scientific communicators

150 + conferences, workshops and scientific sessions

200 + events for the general public, with about 35 000 participants

Budget : 5 M€ (1 M€ from EU)

THE CALL FOR POSTERS IS LAUNCHED

Poster presentations will be presented and highlighted all throughout ESOE 2018, taking place in various areas of the forum and ensuring high visibility to your work.

This format will also be a great way to engage in networking with all the ESOE communities. We encourage proposals from all actors, focusing on students and early career researchers, whose participation will be especially welcome in this ESOE 2018 Toulouse edition.

The [online submission platform](#) is open.

The call is exceptionally extended until Wednesday 28 February, take your chance and submit your proposal now!

Reminder:

Only an abstract presenting briefly your poster is requested for now.

You will be requested to send your final version of the poster by the end of June 2018

ESOF 2018: PROGRAMME NUMBERS

Scientific Programme :

Nb sessions = 123

121 (SP) + 1 (from S2B) + 1 (from Careers)

Careers programme

Nb sessions = 28

1 (from SP) + 27 (from Careers)

Science to Business programme

Nb sessions = 29

5 (from SP) + 24 (from S2B)

Keynotes-Plenaries:

Nb sessions = 13

9(KN) + 4(P)

Top-Down

Nb sessions = 8

Specials

Nb sessions = 8

Hot Topics

Nb sessions = 4

TOTAL = 214

4 competitiveness clusters:

- Aerospace Valley
- Cancer-Bio-Health
- Agri Sud-Ouest Innovation
- Water

More than **22 000** researchers

- **3 Universities, 4 Schools of Engineering and 14 Higher Education Schools**
- **A university created in 1229, the 3rd oldest in France**
- **Toulouse region Occitanie is first in France for the investment in research and development**

Science & Research

Toulouse, a city of knowledge

MCAA 2018 GA Leuven

Airbus A380

N°1 : European capital for the aeronautical and space industry, Toulouse hosts the Airbus, Galiléo, SPOT Image, and CNES headquarter.

25% of the French aerospace research

25% European jobs

Thalès Alenia Space, the most renown satellite manufacturer in Europe, and EADS Astrium Satellites have also chosen to settle in Toulouse.

High Technology & innovation

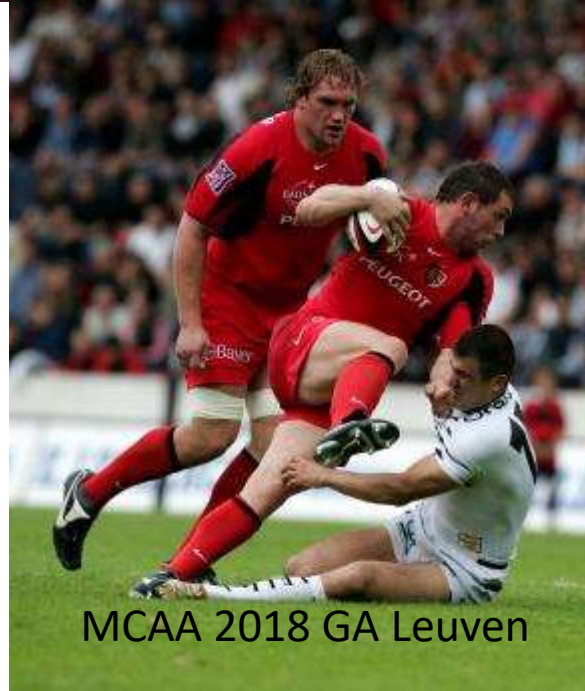

Well-being

- In the last 10 years, **200 000** new inhabitants have come to Toulouse.
- **17 000** new arrivants each year in the urban area.
- 2nd favorite city of French people
- More than **1000** restaurants
- More than **100** festivals per year
- **15** major museums

Passion

Pleasure

MCAA 2018 GA Leuven

Lifestyle

A green “pink city”

160 parks & gardens

150,000 trees

1,000 hectares of green space

142mi of bicycle path

A RICH HERITAGE

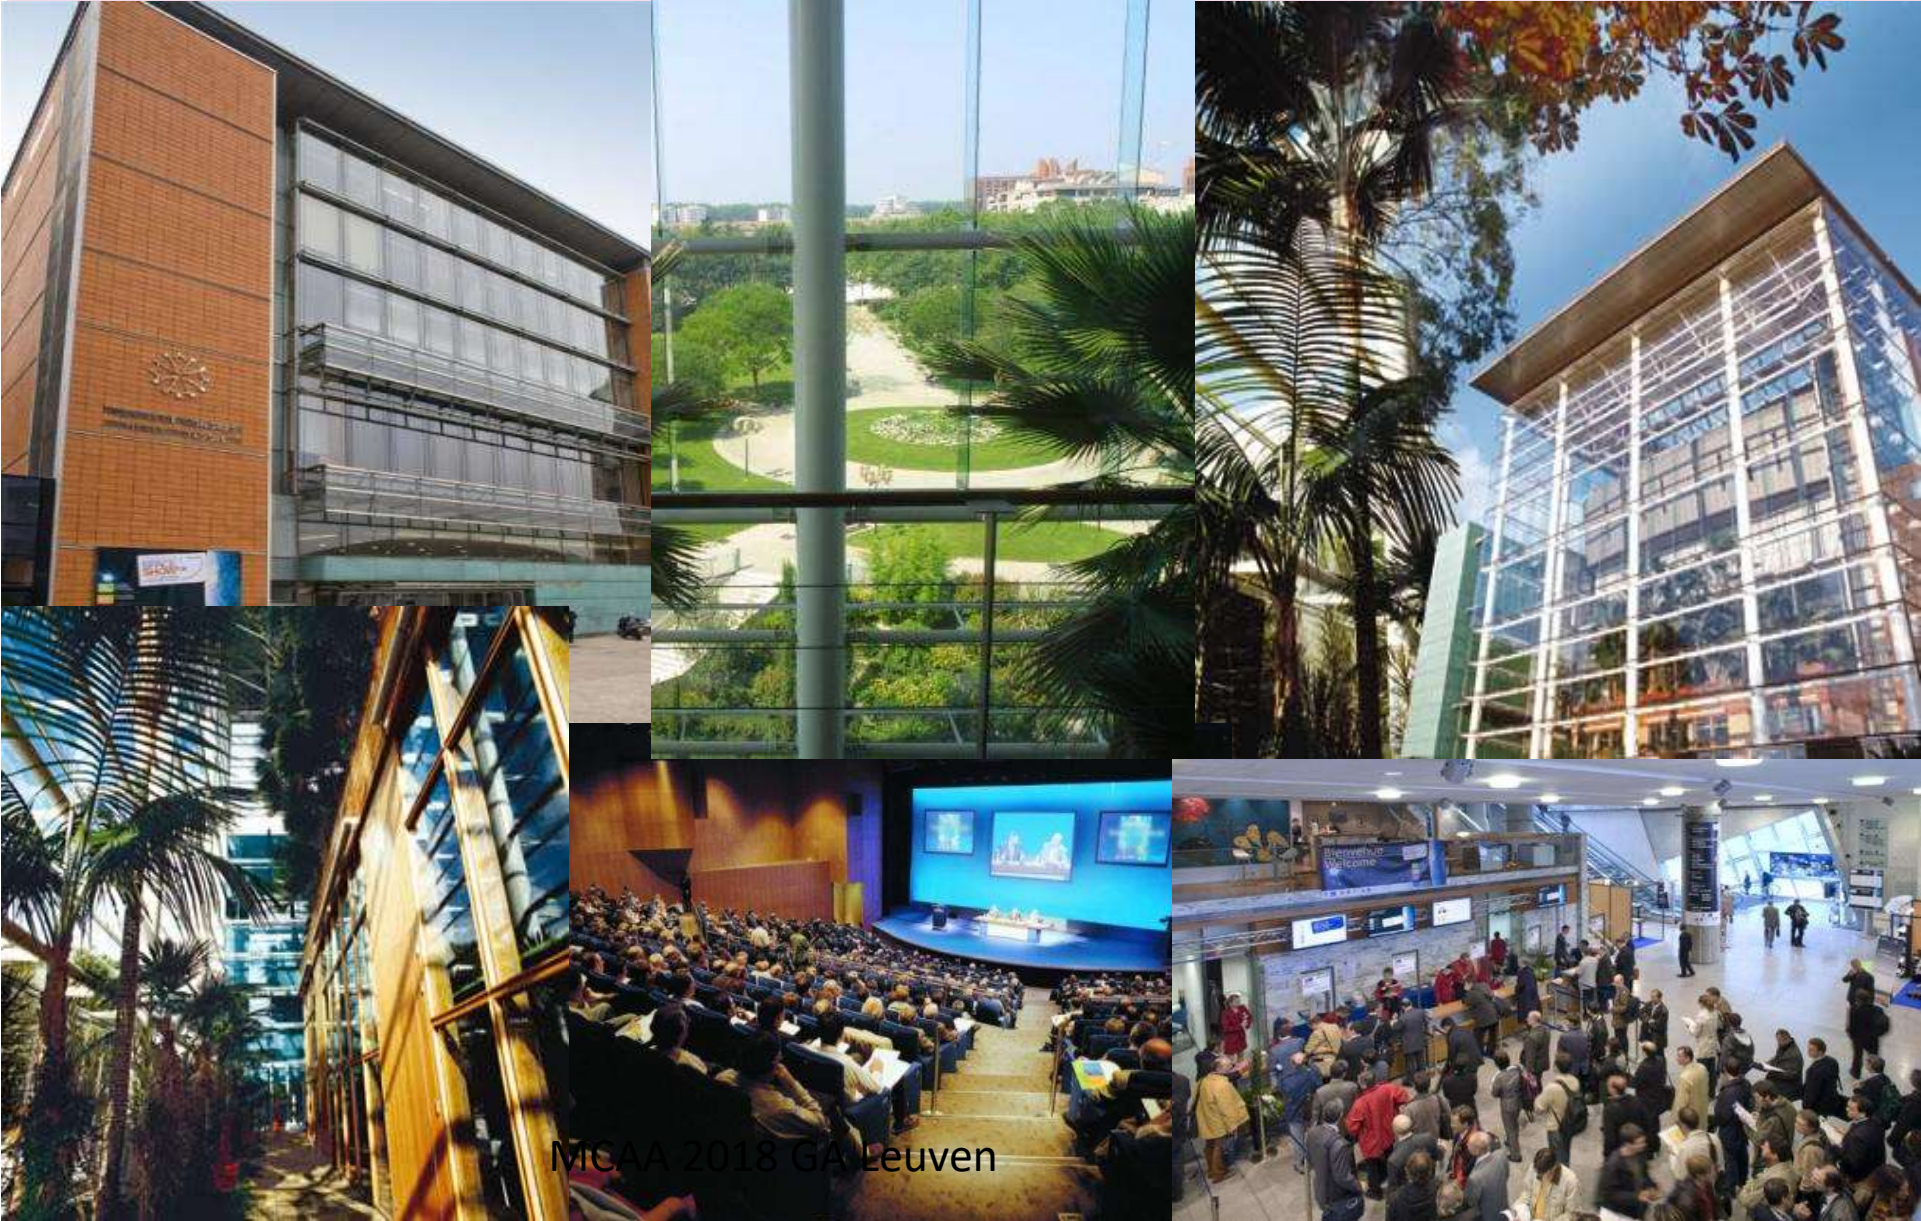

Foie gras, Armagnac, Cassoulet, Pastis gascon...

Gastronomy

Pierre Baudis Congress Center:

MCAA 2018 GA Leuven

ESOF 2018: SCIENTIFIC PROGRAMME

Zoom on ESOF scientific forum

10 scientific themes

1. Sustainable cities, sustainable living
2. Global change: challenges and opportunities
3. Science policy and transformation of research practice
4. Frontier research and exploring extremes
5. Health in our societies
6. Understanding divided societies
7. New trends and technologies in transport
8. The use/mis-use of research and scientific advice
9. Sharing knowledge
10. A digital world

4 cross-cutting themes

- Risk and safety
- Inequalities
- Gender issues
- Ethics

Deadline for proposals was: 23 June, 2017

ESOF 2018: SCIENCE IN THE CITY FESTIVAL

Zoom on « Science in the City » Festival for the general public

Science in the city

- A festival for the general public in French
- Events in various places in the city and in the Occitanie region
- Another way to discover science and the city with thematic circuits
- Conferences, workshops and fun activities for all ages
- Famous scientists meeting the general public

Call for initiatives
Deadline : 30 September 2017

ESOF 2018: CAREERS PROGRAMME SUBMISSIONS

Opportunities and challenges for early career researchers and innovators

4 Themes

1. Successful career for European researchers in the global context
2. Social utility of researchers in Europe and beyond
3. European and global scientific community
4. Added value and characteristics of evolving research-based careers

4 cross-cutting themes

- Risk and safety
- Inequalities
- Gender issues
- Ethics

46 Proposals submitted

Distributed between the 4 themes

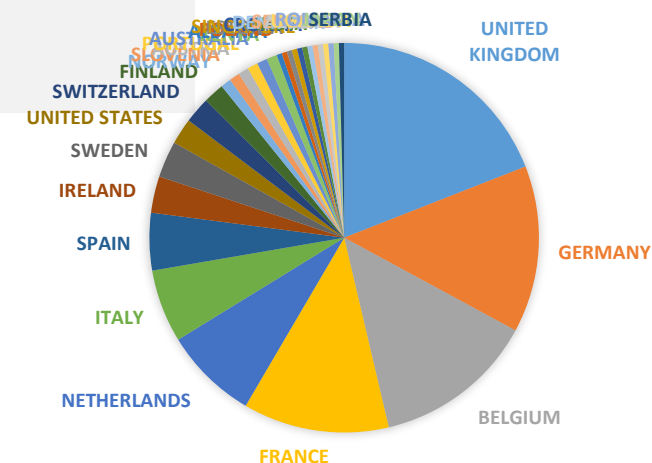

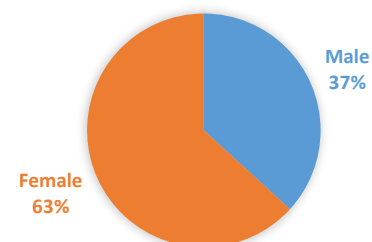

+ 140 Speakers

31 countries

36 nationalities

mostly from Europe

Gender balanced to be improved

ESOF 2018: CAREERS PROGRAMME SELECTION STATS

4 Themes

1. Successful career for European researchers in the global context.....6 (including 2 merge)
2. Social utility of researchers in Europe and beyond.....9 (including 1 move, 1 merge)
3. European and global scientific community7
4. Added value and characteristics of evolving research-based careers7 (including 1 merge)
5. Other2

ESOF 2018: SCIENCE TO BUSINESS PROGRAMME SUBMISSIONS

12 Themes

1. Business Networks
2. Business to Science, Innovator's thinking
3. Climate Change
4. Business Trends in Transport Technologies
5. Business in a Digital World
6. Tourism, New way of life *no proposal*
7. Innovation Challenges of the Silver Economy *no proposal*
8. Human Factors and Persons first in Business – the Industry of the Future
9. Science, Research and Entrepreneurship
10. Change of the Entrepreneurial Paradigm
11. (Transversal) Security and Safety *no proposal*
12. (Transversal) Responsible Research and Innovation

4 cross-cutting themes

- Risk and safety
- Inequalities
- Gender issues
- Ethics

43 Proposals submitted

Themes unbalanced – Several themes without proposals

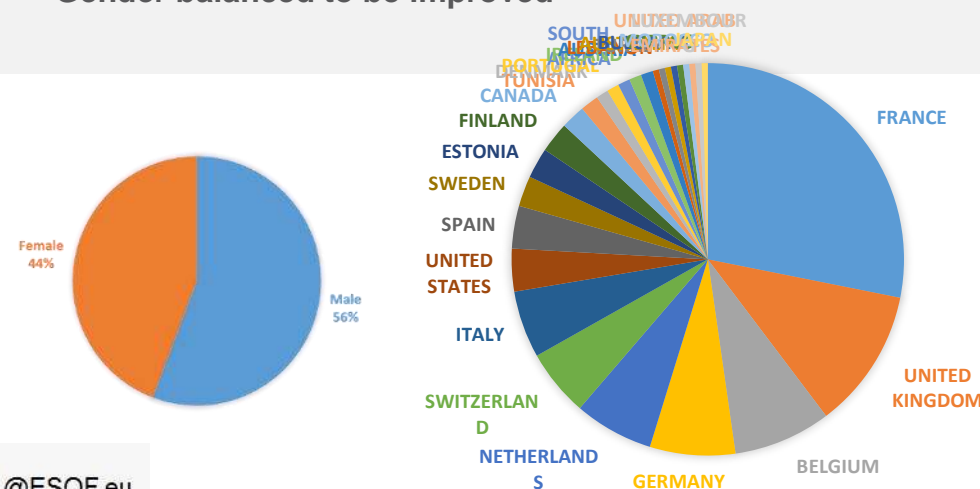

+ 190 Speakers

28 countries

34 nationalities

mostly from Europe

Gender balanced to be improved

ESOF 2018: SCIENCE TO BUSINESS PROGRAMME SELECTION STATS

12 Themes

1. Business Networks3 (including 1 merge)
2. Business to Science, Innovator's thinking.....6
3. Climate Change2 (including 1 move)
4. Business Trends in Transport Technologies
5. Business in a Digital World3
6. Tourism, New way of life *no proposal*
