

Seeking for Marie Curie PostDoc Candidates - Gynecological Cancer Group

The Gynecological Cancer Group of the **Bellvitge Biomedical Research Institute (IDIBELL)** is seeking for motivated PostDocs willing to apply for the Marie S. Curie Individual Fellowships 2020 in the fields of cancer biology and immune therapy. Successful candidates will join a young, international, dynamic and well-equipped/funded research group with a multidisciplinary research environment in the gynecological oncology field. For more information please visit www.llobetnavaslab.org.

Institution:

The position is to conduct research at IDIBELL (Barcelona, Spain). Its approach to the disease is comprehensive, combining, all in one organization, prevention, care, specialized training and research. We are a center of reference in Catalonia, both in healthcare quality and in research. IDIBELL provides equal access to and opportunity in its programs, facilities, and employment without regard to race, color, creed, religion, national origin, gender, age, marital status, disability, public assistance status, sexual orientation, gender identity, or gender expression.

Department/Unit:

Gynecological Cancer

Project description:

Candidates will receive dedicated institutional support with the preparation of the MSCA application in order to achieve a successful translational proposal aimed at decoding novel actionable gene networks to increase tumor immunogenicity in the endometrial cancer (EC) field. To achieve our goals we will perform functional biology experiments employing functional screenings using customized CRISPR libraries, next generation sequencing, organoids, patient-derived EC orthoxenografts and patient primary samples. For more information about our work please visit www.llobetnavaslab.org.

Requirements:

- Doctoral Degree: Cell Biology, Cancer Biology, Oncology, Immunology, Metabolism
- Mobility:
 - o Standard European Fellowships (ST): must not have resided or carried out the main activity (work, studies, etc.) in Spain for more than 12 months between 9th September 2017 and 9th September 2020.
- Career Restart Panel (CAR) or Reintegration Panel (RI): must not have resided or carried out the main activity (work, studies, etc.) in Spain for more than 36 months between 9th September 2017 and 9th September 2020 between 9th September 2015 and 9th September 2020
- Additional skills and knowledge:
 - o Previous experience with mouse modeling/mouse work will be positively valued and computational skills, although not required, will be enthusiastically welcomed.

- We look for an independent, creative and motivated individual with aptitudes for team work and good communicative/social skills. The candidate will be expected to take a lead in several aspects of the project while enriching and contributing to the pool of knowledge within the hosting group.
- Fluent English language
- Experience in :
 - Previous grounded experience in the cancer field and/or immunology is required.

Applications:

Highly motivated candidates, please, send complete CV, cover letter and two reference contacts, to preaward@idibell.cat before **June 15th 2020**.
