

Bridging science and business working group of MCAA

Pavlo Bazilinskyy - chair or Bridging science and business working group of MCAA

Bridging science and business working group of MCAA (BSB)

1. To bring together research and business
2. To share knowledge on the topics from both worlds of business and science for free, when possible.
3. To create a community for entrepreneurs
4. To participate in both MCAA-led and external initiatives aimed to bridge business and research.
5. To establish a platform to help members of MCAA in starting their startups.
6. To engage in the discussion with other groups of MCAA on policy making.

BRIDGING SCIENCE AND BUSINESS WORKING GROUP OF MCAA

+ Strive to integrate academia and business from both ends

+ Foster a community of highly skilled entrepreneurs

+ Encourage the translation of academic research into industrial innovation

+ Support the innovators with guidance and international expertise

+ Initiate business networks

+ Organize training on a pan-European level
