TOTAL BUDGET REQUESTED	6000			

Add as many lines as needed

Please provide information the multiple objectives you aim to achieve with the activities proposed above.

The E&N WG has already experience in spreading the voice of M(S)C fellows. The intention is to cover all the European areas where MCAA is not present and to set a local chapter. Therefore, this working group aims at organizing more events, inviting external speakers to inform the fellows and to let them share their achievements. In addition, this working group want to collaborate with the

¹ Please provide information on any external support you may be able to bring to the implementation of the proposed activities.

Bridging science and Business WG because networking is a common key-word. Finally, the E&N WG supports in general all the activities meant for networking and/or events.
