

The ENLIGHT-TEN summer school<sup>1</sup> consists of an introductory e-learning (~10 hours student investment time) followed by a 5-day face-to-face workshop. The course is intended for PhD students in the second half of their PhD and early postdocs who are involved in biomedical research.

### Dates

E-learning course                      March/April 2018  
Face-to-face course                    16th – 20th April 2018

### Location

Bayer AG, Müllerstr. 178, 13353 Berlin, Germany

### Registration (now open)

First come, first serve. Please submit your application documents [here](#) which will be reviewed by a selection committee. We will let you know whether you have been accepted within 2 weeks of your application. There are only 17 seats for non ENLIGHT-TEN participants, so we recommend applying early. The registration will close on 15 January 2018.

### Costs

The fee of 300 Euro includes the 5 day course in Berlin, catering during the course, two dinners and the e-learning.

### What students say<sup>2</sup>

- If you have the opportunity to take part in this course – do it. It will fundamentally change your view on how your work as a research scientist can make a difference in the real world outside your lab (Konstantin Kuhne)
- Very interactive course with a non-traditional approach. The course reflects the reality of translational medicine: getting a lot of people with different backgrounds to work together as a team (Miriam Ayuso)
- My expectations to the course were very high, and they were fulfilled (Sandra Heckers)
- It was a difficult decision to leave the lab for 5 days but it absolutely worth it (Kevin Ferreira)

### Confirmed speakers

Bob Harris, Professor Immunotherapy, Karolinska  
Matthias Gottwald, Head of R&D Policy & Networking, Bayer AG  
Keith Williams, Director, KW Drug Developments  
Jörg Lippert Global Head Clinical Pharmacometrics, VP at Bayer AG
