Research Ethics | July 6-8, 2020

OEdaverse Short Course - Online/Offline

Ethical dilemmas may arise in all stages of the research process, ranging from stating your research objective, through data collection and analysis, to reporting and publishing your findings. The trainer, Dr. Stefan T. Mol, assistant professor in Organizational Behavior and Research Methods at the Amsterdam Business School of the University of Amsterdam, will lead this interactive online/offline course, which brings awareness to ethical issues that arise in research and the appropriate courses of action to take.

Early Bird rates end June 10th! [Click here for more details and apply now!](#)

ABOUT OEDUVERSE

The Erasmus+ funded OEdaverse Consortium is comprised of institutions and organizations committed to providing researchers 21st century skills needed to further European research in today's world. The consortium will offer a series of pilot events and summer schools focused on Open Science, Mental Wellbeing, and Communicating Research.

Funded by the
Erasmus+ Programme
of the European Union

ABOUT SCILINK FOUNDATION

SciLink was founded by researchers from various European universities who see the need for access to transferable skills and other professional development tools in the research community. To that end, SciLink uses its vast network of experienced and active researchers to train and mentor their peers on topics ranging from research management, communicating science, and writing award winning grant proposals.

ENTREPRENEURSHIP FOR RESEARCHERS 101

Interested in learning more about how you can turn your research into a viable business? This interactive, online course will give you insights into the practical steps of starting a business. The trainer, Dr. Marco Masia, will walk you through the entrepreneurial journey from the unique perspective of a researcher and entrepreneur. **Early Bird rates end May 31st** - [Click here for more details and apply now!](#)

WRITING FOR PUBLICATION

The course aims to make you more aware of expectations in research publications, especially peer review journals. Improve your introduction, develop your argument, and deliver a strong conclusion. Current PhD students and even experienced researchers can benefit and improve their writing skills with the guidance of our facilitator, Robin Bellers. Dr. Bellers has been teaching academic writing for nearly 20 years to researchers of various research disciplines. **Early Bird rates end June 5th!** [Click here for more details and apply now!](#)
